## FENCING, Oration Quarter, 1941.

We have had three fixtures this quarter, at which we have acquitted ourselves bravely, if not well. We still have no instructor, Col H. P. Jameson's repeated

searches in that direction having proved of no avail, and there is no doubt that our speed and style are suffering accordingly. But after the match against Wellington we felt ourselves at least competent to take on Bradfield, and their undoubted superiority was somewhat of a surprise for us. We were, however, quite satisfied with the result of the match at Sandhurst; we hardly expected to come off so lightly as we did!

Stewardson and Erulkar have both fenced well this quarter. Amberg has developed a tendency to rely too much on superior reach, and not enough on swordsmanship. Such tactics may succeed against poor opponents; but they have but one result against the skilled sabreur. To Stewardson also must go the credit of the longest assault ever witnessed at Charterhouse—twenty minutes all told, ten of them over a single point.

### SHOOTING

Summer Quarter, 1941

Shooting was much restricted during the Summer Quarter owing to lack of ammunition, and poor travel facilities curtailed matches. A match was held at Puttenham against King's College School, on June 13th. Our opponents had obviously had more practice than us, and we were easily beaten by 44 points.

On June 28th we had our only away match of the season, against Wellington College. After a very bad start at 200 yards, we made a great recovery at 500 yards, and the issue hung in the balance up to the last few shots. We were beaten by 6 points. After the match J. P. Cranstoun (V) and A. P. P. Ricketts (V) received their colours.

The competition for the House Cups was held on July 17th. The Searle Cup was won by Weekites, the

Simpson Individual Cup by B. L. Firth (W), and the Under Sixteen Cup was shared by A. M. Cranstoun (V) and J. H. G. Woolcombe (D).

At the close of the season W. F. W. Southwood (D) received his Shooting colours.

Oration Quarter, 1941

We started the Miniature Range season with a postal match v Winchester, under *Country Life* conditions, and were soundly beaten by 45 points.

Of the little time that can be allotted to Miniature Range Practices, much is taken away by such activities as football, National Service, extra parades, etc. These handicaps make it extremely difficult to put in any proper practice and, until something is done to alleviate the position, good results are hardly to be expected.
