

Development History of the OrnaVerum website

Please note the Version Number format of AA.BB.CC :

AA : represents a major release
 BB : represents a minor release
 CC : represents corrective amendments of text or layout

However, this third level of version number is treated with benign neglect - incremental corrections and improvements are constantly progressed from behind the scenes without fanfare or hullabaloo.

But any change whatsoever, large or small, is reflected in the "Updated" alert on the Home page-title bar.

And be assured that there is invariably a great deal more material awaiting its turn to go on-line, DV & WP.

Please note also : Hyperlinks hence to webpages work impeccably (that's tempting Providence)
 ... but hyperlinks to within webpages may need to be repeated to hit the right spot
