Churchill is cold, but much the same as it can be in England. I am on a week-long visit to the Elderhostel course here & today went up in a helicopter & saw 5 bears. We are housed in a rather elderly building, which reminds me of wartime service - bunk beds, 4 to a room, but all very agreeable people. There are 36 in the group (34 Americans & 2 Canadians). We go home on Wed. next & I reach Victoria on 21 October. xxx Jane
