16 Sept. '01

Dear Frances

The card you sent is so pretty - I think it was made by another resident of L.N.H. + she has very good taste! I am enclosing another casual photo, a "sidewalk cafe" scene, + the man in it is the one who can speak Japanese fluently. He was most useful on Friday when we invited a little Japanese lady to speak to our group.

I am sure you are as horrified as everyone else about what has happened in New York, + it is going to affect us all in time. I do hope George Bush listens to wise advisers. He doesn't look the right person to rise to a situation like this.

However, as everyone keeps saying, "Life Must Go On"! But not ^{is} just as before.

Lots of love from Jane
